We achieved a strong financial performance in the first half of 2015 despite a difficult market environment, with net profit up 12% compared with the first half of 2014. Our solid financial position allows us to maintain investments in our growth initiatives. We continue to focus on the expansion of our private clients business in Europe, Switzerland and the emerging economies, and continue to sharpen our asset management capabilities. Our technology & banking services business will further develop its platform for the benefit of our own and third party clients.
A solid balance sheet

The balance sheet is highly liquid and was not impacted by the de-pegging of the Swiss franc. Total assets amounted to CHF 17 billion as of 30 June 2015. The Group has no external debt and is one of the best capitalised globally with a fully-loaded Basel III CET1 ratio of 22.7%.

Lombard Odier’s strong capitalisation is one of the foundations of its clients’ trust in the firm.
